

# Promo: Armored data protection for your customer's business with RDX® removable disk systems

You are the trusted advisor for your customers to build a full disaster protection solution and safeguard against virus and ransomware attacks. Enhance your competence and skills with our promotion!

The RDX removable media system is an established standard, with attributes beyond other simple data storage products, RDX is the trusted removable disk technology. The tough, armored design provides a reliable and valuable data repository.

## Data treasury

Virus and ransomware attacks can infect backup sets regardless of its location on the computer or network. The on the go capability makes RDX ideal for off-site disconnected storage for disaster recovery with media rotation. RDX offers armored data protection and reinforced portability in your pocket. Your customer's data on RDX media is removable and secure in transit.
